Facebook

You can use the Facebook for BlackBerry devices app to stay connected with your friends. Send messages, chat with your friends, invite new friends, upload pictures to your Facebook account, and more.

Navigate the Facebook app

The Facebook for BlackBerry devices app opens on your News Feed screen.

To navigate to other screens, such as your friends list, profile, or events, in the upper-left corner of the screen, tap .

Change your Facebook notification options

Once you sign in to the Facebook for BlackBerry devices app, your Facebook notifications automatically start appearing in the BlackBerry Hub.

1. On the home screen of your BlackBerry device, swipe down from the top of the screen.
2. Tap **Settings** > **Accounts** > **Facebook**.
3. Do any of the following:
   - To turn off all Facebook notifications, set the **Enable Notifications** switch to **Off**.
   - To stop receiving Facebook messages in the BlackBerry Hub, set the **Sync Messages** switch to **Off**.
   - To stop adding Facebook events to the Calendar app, set the **Sync Events** switch to **Off**.
   - To change when you're reminded of your Facebook friends' birthdays, tap the **Birthday Reminders** drop-down list.
4. Tap **Save**.

Change your Facebook settings

You can change your Facebook profile information, privacy settings, security settings, and more.

1. Tap > .
2. Complete the instructions on the screen.

Change your photo, video, and Facebook Places permissions

When you use the Facebook for BlackBerry devices app for the first time, you're prompted to allow the app to access your camera, files, and location. If you allow Facebook to access this information, you can upload photos and videos, and check into Places. You can turn off access to any or all of these features at any time.

1. On the home screen of your BlackBerry device, swipe down from the top of the screen.
2. Tap **Settings** > **Security and Privacy** > **Application Permissions** > **Facebook**.
3. Do any of the following:
   - To stop uploading photos that you take with your device, set the **Camera** switch to **Off**.
   - To stop uploading any files, such as photos or videos, set the **Shared Files** switch to **Off**.
   - To stop checking into Facebook Places, set the **Location** switch to **Off**.
